Curriculum and Supplies

2025-2026

Please note that while these are listed by grade level, your student may place in different levels of math and language arts and that is okay! Once your student has been assessed, please let know their placement levels.

The Good and the Beautiful recommends that you do NOT go beyond the student's grade-age level in language arts, even if they test higher. The following is from the placement test instructions:

- The placement test will help you know if a child needs remedial reading help by starting on a level lower than his or her grade level.
- If the child reads at or near his or her grade level, it is recommended that the child starts on the course that corresponds to his or her grade level.
- Likewise, if the child is an advanced reader, it is recommended that he or she starts on the course that corresponds to his or her grade level. The child can be kept challenged with reading books on his or her level from The Good and the Beautiful Book List, and all the reading materials in the courses are valuable and of the highest literary quality, even for advanced readers. Not skipping levels ensures that no foundational learning is missed in spelling, literature, writing, grammar, geography, and art.

Here are the links to the math (K-8) and language arts (K-3) placement tests:

Grades 4+ will use Classical Academic Press materials for grammar and writing. You only need to buy the student books, linked below, but may also purchase the teacher's guide. We will send home assignments and check them in class, so the teacher's guide is not necessary at home.
